Built for heavy-duty drilling, the Airbor 700 is a sturdy, yet budget-priced multiple spindle vertical boring machine.

WARRANTY 1 YEAR

AIRBOR 700 - DRILL TEMPLATE OPTION

OPTION SECURITY

## CHARACTERISTICS & OPERATION

- Built for heavy-duty drilling, the Airbor 700 is a sturdy, yet budget-priced multiple spindle vertical boring machine.
- Material feed is controlled by an air logic system and feed speed is adjustable. Mechanical stops guarantee consistency of drilling depth within a few thousands of an inch. Spindle arms can be positioned in any direction, thus using the entire table's surface.
- Basic machine includes: main body, hardwood table of lengths specified above with a maximum vertical travel of 6", air/oil feed, fast approach, air-operated control with foot valve, 2 air-operated hold-downs and safety guard.
- The Airbor 700 is available in 3, 4 and 6 feet frames.

## OPTIONS & SPECIFICATIONS

- 1 ½" diameter, set screw lock-type spindle;
- 1 ½" diameter, spindle with spring collet;
- 1 ½" diameter, spindle with 3/8" capacity Jacobs chuck;
- 1 ½" diameter, spindle with ½" capacity Jacobs chuck;
- 1 ½" diameter, spindle with threaded 7/16" - 14;
- 2" diameter, set screw lock-type spindle;
- 2" diameter, spindle with spring collet;
- 2" diameter, spindle with ½" capacity Jacobs chuck;
- 2" diameter, spindle with threaded 7/16" - 14;
- Cluster with fixed centers;
- Hydraulic spindle for end boring;
- Dovetail beams;
- Templates;
- Special motors;
- Hold-downs;
- Idler pulley.
